

WASHINGTON.

Explosion of the Radical Sensation About the Withdrawal of the Democratic Candidates.

THE ALABAMA CLAIMS.

Arming of the Negroes of the District of Columbia.

THE OVERLAND MAILS.

Special Dispatch to the Louisville Journal.

WASHINGTON, Oct. 18.
ALL QUIET.

The sensation regarding a change of Democratic candidates has entirely subsided. The Baltimore, Washington, and Southern press denounce the movement very bitterly. The Democrats of the District of Columbia have called a mass meeting for the 20th inst., to denounce the Democratic and keep the Blair flag flying. They state in their call that they do not share in the panic which has seized some of the weak-headed.

A dispatch from a prominent member of the Democratic party in New York, received this evening, says the position of the *World*, in reference to the Democratic nominees, is wholly unauthorized, and a silly attempt to imitate the independence of the *Herald*, and that the *World* is not an organ of the party.

MR. SNEYDOR.

Private letters state that August Belmont has just come to New York from Union, where he had a conference with Mr. Seymour. The Democratic candidate expressed his surprise and mortification at the sudden panic of the New York *World*, and declared that, if the party is defeated in November, it will surprise him still more. He expressed great satisfaction at the gains made in the three great States, and thinks that the Hebrew and Catholic vote will throw them again against Grant. Mr. Seymour says that the *World* will go Democratic by fifteen thousand, based on calculations on reports received by him from all parts of the State. It is all a mistake that he has entertained a thought of relinquishing the field.

ALABAMA CLAIMS.

Some weeks since it was stated that the administration had information that Minister Beverly Johnson had taken an important step toward the settlement of the Alabama claims. The cable telegrams to-day represent that the basis of settlement is a mixed compact to sit in London and pass upon all claims presented by citizens of the country. This is in accordance with the proceedings adopted by this government for many years in the adjustment of claims arising between the two nationalities in the shape originally proposed by the English government.

ANOTHER RADICAL ROBBER.

A publication to the effect that the Johnson Departmental Club had resolved to support Grant and Colfax, and also to withdraw from the files of the department all recommendations made by the club for the removal of Republican clerks, is entirely without foundation.

NEW YORK.

I am informed on unquestionable authority that the negroes of this District are continuing to organize new military companies, fully uniformed and equipped.

PAYMASTER AT NEW ORLEANS.

Major Steinberg has been relieved from duty as paymaster at New York, and ordered to duty at New Orleans.

THE OVERLAND MAIL.

The Post office Department is embarrassed about the conveyance of the mails between the termini of the Pacific railroads. The telegraphic correspondence shows that Brigham Young is willing to undertake it, to be paid a certain sum for a specified amount of matter, and pro rata for overage. The Post Office agent telegrammed Salt Lake City that Wells, Fargo, & Co. are the only persons who can perform the service, but they are not prepared for an immediate and definite arrangement on their own terms. The entire amount of money appropriated by Congress for the Pacific coast and overland mail service is not even two-thirds of the expense of the coming year.

THE SPANISH MINISTER.

Mr. Zorn, the Spanish minister to the United States under Isabella, is to be continued as the Spanish minister at this court under the Provisional Government of that country.

NEW YORK.

Special Dispatch to the Louisville Journal.
INDIANAPOLIS, Oct. 18.
Radical villainy is still engaged paring down the Democratic gains so as to give Baker a respectable majority.

At the outside this sort of corruption cannot figure up a plurality of more than a thousand.

Voorhees and Reid are both elected, but at the rate we are traveling there is no telling what the radicals may not do to cheat them out of their seats.

NEW ENGLAND.

Nassau killed by a locomotive.
BOSTON, Oct. 18.
The existence among the Democrats continues, though it is less lively than yesterday. Seymour and Blair telegraphed to the Executive Committee that they will act for the best interests of the party; but from present indications, they will have no occasion to resign. Democrats are betting five to one there will be no change of candidates or platform. Several Democratic leaders, Treadwell, Treadwell, and Harvey C. Murphy, a sugar manufacturer of the Broadhead letter, and a dozen of revolutionary intentions on the part of the general Blair. There is said to be a movement on foot for compromising matters between the two parties in this State, and securing the votes of conservative Republicans for Hoffman.

PENNSYLVANIA.

Election Returns—Died from His Wounds.
PHILADELPHIA, Oct. 18.
Official returns from Clearance County show a Democratic gain of 1,112—Republican gain of 111—

The following official returns have been received: Republican—County, 50; Forrest county, 4; Saporta county, 3. Democratic—Montgomery county, 1,009; Adams county, 513. The returns from the First, Second, and Third districts were not yet received.

DETROIT, Oct. 18.

A conference took place yesterday between G. Seymour and certain members of the National Democratic Executive Committee, to consider the most important measure to be adopted in the present canvass. During the conference, G. Seymour alluded to the suggestions of the broadhead letter, and a desire of revolutionary intentions on the part of the general Blair. He said any change which should be made should include his name, and that it was nominated against him if any other name were substituted for him. The committee replied that it had been contemplated by many of them that such a change could be injurious to the Democratic candidate, and that it was refused to entertain any such suggestion.

OHIO.

ELECTION NEWS.
CINCINNATI, Oct. 18.
The official returns of Hamilton county give the Republicans an average majority of 1,000, and the Democrats a majority of 1,000 in the First District. Mayor Winchester presided, in place of Lieutenant-Governor Carl Schurz, who was ill. The expenses of the election were made by Dr. J. S. Ormsby, and Rev. H. C. Trumbull, of Hartford. The convention continues to-morrow.

TENNESSEE.

CLEVELAND, Oct. 18.
A mass meeting of the Sunday school commenced in this city to-day. Interesting services were held in the Tabernacle, and in various Methodist churches of the city, by distinguished preachers of that denomination, and this evening a reunion meeting was held in the Tabernacle, and at the City Hall. Mayor Winchester presided, in place of Lieutenant-Governor Carl Schurz, who was ill. The expenses of the election were made by Dr. J. S. Ormsby, and Rev. H. C. Trumbull, of Hartford. THE OVERLAND MAILS.

Special Dispatch to the Louisville Journal.

WASHINGTON, Oct. 18.

The following is a correct and authentic statement of the present position of the question of trade in the British provinces: the settlement of salary disputes and the free navigation of the St. Lawrence river, Mr. Thorton, British minister here, addressed a note to Mr. Seward in which he said: "The condition of the people of the United States in consequence of their expenditure of our markets, and the increased cost of living, has created a general dissatisfaction and retarded discouragement, and the liberals are confident that they have a right to demand a redress of grievances, and asking him to enter into negotiations."

London, Oct. 18.

The Parliamentary canvas throughout Great Britain is becoming very lively. Large meetings have been held in the House of Commons with withdrawn resolutions, and the Liberals are confident that they have a right to demand a redress of grievances, and asking him to enter into negotiations.

The success to the Spanish throne remains undetermined. The choice of Ferdinand, ex King of Portugal, and the name of the present insurgent general is honorably involved. Our correspondent says: "One O'Doherty, dared to oppose the reactionary faction, that headed by Gonzalez Bravo for the exclusion of Espartero, and the return of King Ferdinand, has exacted the price of his life, and has been given a full-fledged restoration in Mexico. Every one of them, however, has proved to be a man of high birth, his fluctuations and its vast concerns," among the latter of which may well be enumerated the crops, the industrial interests, and the political condition of the country. The course of the war is now in the hands of Ferdinand, the count of O'Doherty, who is famous by the battle of the St. Lawrence's river. A wheat crop decidedly above an average, has been followed by a large corn crop, and the weather has been favorable for the growth of good weather, will be abundant and remunerative, if present indications are to be believed. The cost of raising a good crop is to be paid for that staple. A good deal of grain is raised on the stalk account of the excessive rains of last month, but there will be an abundance of grain to keep up the market, and the same may be expected to follow the arrival of the new season. The market will be open to the sale of grain, and the price will be determined by the cost of raising a good crop."
